

Indac Wallace Seals

The INDAC Wallace Seal has been specifically designed to make the fitting of overflow pipes and down pipes to polyethylene tanks simple and reliable.

Simply drill hole, fit the Wallace Seal and insert pipe. The INDAC Wallace Seal operates to a depth of 15mm, suits curved and flat surfaces.

Unique multiple lips ensure a high integrity seal.

Easy to install, you only require the right sized hole saw and drill.

The INDAC Wallace Seal creates a semi-flexible joint between pipe and tank.
